#### A Loss of 97,000 Votes in 48 Republican Countles From the Vote That Elected Him Governor in 1902 by a Plurality 8.814-The Canal Vote Reviewed.

Gov. Odell, Republicans alleged to be friendly to him said yesterday, fails to appreciate the feelings of the Republicans of the State toward him. A counting of noses of the present State committee is now going on preparatory to the meeting on Saturday, when the first show of strength is possible The State committeemen from anti-canal Congress districts are to have an important influence on all plans looking to forwarding the Governor's political ambitions.

A table was prepared yesterday and handed out which is intended to be interesting reading for State committeemen from the forty-three Republican counties which gave heavy pluralities on Nov. 3 against Gov. Odell's \$101,000,000 canal taxation plan. These forty-three counties which in November, 1902, gave Gov. Odell total pluralities of 108,279, gave on November 3 last pluralities of 205,294 against Gov. Odell's \$101-

ties of 205,294 against Gov. Odell's \$101-000,000 canal taxation measure, showing that the statement made by certain Repub-licans who pretend to be friendly to Gov. Odell is correct. That statement is:

"Had the Republican farmers an inkling in November, 1902, that Gov. Odell was to jam through that \$101,000,000 canal scheme he would have been beaten by 100,000 plu-rality." According to the tables Gov. Odell would have been beaten by exactly 97.115 plurality.

#### Humpty-Dumpty Tumble in Prices on the Mercantile Exchange.

The long-overdue break in the egg market has come at last. Prices in the West Side produce district began tumbling on Tuesday and took a mighty drop yesterday and egg prognosticators say the slump is likely to continue for several days before prices touch bottom.

Retail dealers, with very few exceptions, failed yesterday to give their customers the benefit of the drop in wholesale prices but there will be a general scaling of quotations to-day when the consumer discovers what has happened. The decline in the big downtown market so far this week has been eight cents a dozen. "Fresh gathered" Western eggs, the staple eggs sold for domestic use in this city, were firmly held by the big West Side dealers last week at 34 cents.

When the New York Mercantile Exchange opened for business on Tuesday morning it was found that a good many thousands of cases of eggs had been shipped into the city on Sunday and shipped into the city on Sunday and Washington's Birthday. The liberal supplies, coupled with a flood of telegrams from all parts of the West and South saying that the hens were getting enthusiastic, dropped the price to 31 cents.

As a result of the high prices quoted last week in the New York market, shipments of area were that require into the district the state of the state o

ments of eggs kept pouring into the city all Tuesday afternoon and night, and when the exchange opened yesterday the re-ceipts for the twenty-four hours preceding were chalked up as more than 14,000 cases

of 30 dozens each.

Receipts hadn't been so large in months Receipts hadn't been so large in months and, as there was another big batch of telegrams from the hen sections to the effect that the hens were working overtime, the market went to pieces.

It opened at 25 cents, six cents below Tuesday's price. Then a lot of sales were made at 27 cents and more at a quarter of a cent lower. After the official call of the evenage, the price was officially

the exchange, the price was officially set at 25 cents, a clean drop of five cents for the day. The market was rather wabbly at that, however, and eggs may be still cheaper to-day.

## SCHOOLS IN PUBLIC PARKS.

SENATE PASSES BILL FAVORED BY THE MAYOR.

It Permits Temporary Buildings to Be Erected in Parks, Central and Prospect Parks Excepted-8430.000 of Excise Moneys for Police Pension Fund.

ALBANY, Feb. 24.—The Public Education Society of New York city is opposed to using park lands other than Central Park and Prospect Park for sites for public schoolhouses of a temporary nature, and its president, Mrs. Schuyler Van Rensselaer, enlisted the aid of Senator Horace White of Syracuse, chairman of the Senate Cities Committee, to defeat Senator Dowling's bill providing for such a plan. But Senator White was not successful, the bill passing the Senate to-day by a vote of 31 to 4. The Tammany members of the Senate were surprised at the opposition of Senator White, in view of the professed wish of the Republicans to give New York home rule, and thought his attitude was not consistent, as the bill is desired by Mayor McClellan. Senator Elon R. Brown, who has been quiet for a few days past, and Senator Marshall (Rep., Brooklyn) also

opposed the bill. Mayor McClellan is taking Gov. Odell as being serious in regard to home rule He has asked for more home rule for New York city in a bill introduced to-day by Assemblyman Hornidge. The measure authorizes the Board of Estimate and Apportionment to make appropriations for children's playgrounds in the city without coming to the Legislature with a special act every time a new playground is to be laid out. The city authorities propose during the next two years to set aside a number of additional playgrounds, the plans for which are not yet ready, and if this act is passed it will permit of the work being done before the next Legislature convenes. The Tammany members say it is a simple home rule proposition and should

not meet with opposition. A bill which is said to be favored by Fire Chief Croker of New York city, was introduced by Senator Foley. It provides for stop cocks on building gas mains in order to permit the shutting off of the flow

f gas in case of fire.
Assemblyman Wainwright (Rep., Westchester) introduced a bill which was sent to him by the secretary of the police pension fund of New York city. It provides that the boroughs of Manhattan and The Bron shall contribute \$300,000, Brooklyn \$100,000 and Queens and Richmond each \$15,000 to the public pension fund.

Mr. Wainwright also introduced a bill

## Tobin Must Go to Death Chair.

ALBANY, Feb. 24 .- Gov. Odell to-day announced that he would refuse to interfere further in the case of Thomas Tobin, who murdered Capt. Craft in a Tenderloin resort murdered Capt. Crait in a Tenderioin resort in New York city on Sept. 27, 1902. Tobin was to have been put to death on Dec. 14 last, but he was respited until March 14 on the ground that he was insane. The Gov-ernor declares that he believes that Tobin has been shamming and that the physicians who have examined him have so reported.

#### PROTECT OUR FOREST LANDS. Legislative Committee Recommends Further Purchase in Adirondacks.

ALBANY, Feb. 24 .- The special legislative committee which has been inquiring as to the policy of the State in protecting its forests to-day reported to the Senate that the State should resume its purchase of Adirondack lands, establish a sufficient fire protection system and reforest barren and denuded tracts. The committee makes these recommendations:

First—The passage of an act definitely fixing the limits of the Adirondack Park so as to include the contiguous forests which the park was established to protect.

Second—A resumption of the State policy of the purchase of lands in the forest preserve.

Third-The enactment of laws requiring dequate precautions against fire caused by steam engines, a stricter accountability

adequate precautions against fire caused by steam engines, a stricter accountability in damages of all persons setting fires carelessly or wantonly and the establishment of an additional system of fire patrol, to be paid for by the railroads.

Fourth—The adoption and execution of a plan of reforestation of denuded State lands in the forest park.

Fifth—A constitutional amendment empowering the Legislature to pass laws for the destruction or removal of dead timber and débris on burned areas through agencies and employees of the State, and not by contract, for the purpose of reforestation and for the sale of lands owned by the State in forest preserve counties outside of the park limits, when unsuited for a forest preserve, and the application of the park.

Sixth—The passage of an act defining the boundaries of the Catskill Park.

Seventh—An appropriation of \$10,000 this

Seventh—An appropriation of \$10,000 this year and \$5,000 next year, to be used with a like amount appropriated by the National Government in defining, classifying and describing the forests in the forest preserve.

In recommending that the State should its purchase of forest lands the report says:

A definite policy of acquiring the entire Adirondack Park should be adopted and carried into execution within a reasonable time, due regard being had to the rights of private owners and special privileges extended to present owners who cooperate with the State in forest preservation.

#### GAS BILL TO BE REPORTED. It Authorizes the East River Company to Lay Mains in Long Island City.

ALBANY, Feb. 24 .- The Electricity, Gas and Water Supply Committee of the Assembly this afternoon decided to report favorably Assemblyman Remsen's bill authorizing the East River Gas Company to lay mains in the former city of Long

to lay mains in the former city of Long Island. The bill is practically the same one that was passed by the Legislature last year and vetoed by Mayor Low, the only difference being that it has been worded so as to make sure that it does not give the corporation the right to furnish electricity. If this bill becomes a law, and the chances are favorable for its passage, all the gas for Manhattan and Queens boroughs will be supplied from a central station at Astoria, L. I., as it is the intention of the Consolidated Gas Company to build an immense gas station there and do away with the different gashouses in Manhattan borough.

Mr. Remsen says that much of the misapprehension that prevailed at the time Mayor Low vetced the measure, and which was after the Legislature adjourned last year, has disappeared, and people do not consider it to be such a bad bill as it was at first believed to be. He denies that it is a grab for anything and says it will give the city a better gas service. As yet the attitude of the Tammany administration toward the bill has not been made known. Mr. Remsen says that much of the misward the bill has not been made known

#### HOME RULE COMMITTEE MEETS. To Consider the Question Only as It Affects This City.

ALBANT, Feb. 24 .- The home rule committee appointed at the conference of Republican leaders held its first meeting to-day. After discussing the question for an hour and a half it was resolved to confine its consideration of the question as it affects
New York city alone, as other cities of the
State say they have all the home rule they
want. Senator Elsberg of New York,
Senator Marshall of Brooklyn and William Senator Marshall of Brooklyn and William Barnes, Jr., were appointed a sub-committee to examine the New York city charter and report in what direction New York city is limited in its exercise of home rule. Mr. Barnes thinks the New York city Board of Aldermen, with the approval of the Mayor or the Board of Estimate and Apportionment, should have the power to determine whether liquor shall be sold on Sunday and during what hours. It is believed, however, that the committee will indorse Senator Platt's views on the question of Sunday opening. opening.

## The Last Opportunity For a Splendid Investment FURS

Shrewd women, who love the elegance of sumptuous furs, have long since learned that the wise time to buy furs is in the Spring. A luxurious fur garment is not bought for one season, or two. It is an investment made for many years. And when the buying of a garment six months or so ahead, offers a saving of half of its real value, the argument is all one way. When a \$1000 Russian Sable Set can be bought for \$500, the woman who wants fine furs knows that five hundred dollars cannot be saved in any more positive way.

All of these fur garments are from the best fur manufacturers in the business. The pelts are carefully selected, and the workmanship is of the most careful and expert character. These are the chief offerings:

Mayo Rules That Their Victim Was a Conspirator to Defraud. Henry Filbert, a butcher at 51 Beach street, was the complainant in the Tombs court yesterday against two men who, he sald, had robbed him of \$8,000, all his sav-ings, through the old wiretapping game. Magistrate Mayo discharged the prisoners after listening to the testimony, on the ground that Filbert was a party to a con-

spiracy to defraud.
